Summary

Motivated student with a strong interest in Artificial Intelligence and Data Science. Currently building practical skills in machine learning and data analysis, and seeking an opportunity to apply my knowledge in a real-world environment.

Education

B.Tech – Computer Science Engineering (Pursuing) – [2023–2027]

Sri Venkateswara Institute of Technology (SVIT) | Anantapur, Andhra Pradesh | CGPA: 8.0

Intermediate – MPC – [2021–2023]

Govt. Jr. College (GJC) | Kalyandurgam, Andhra Pradesh | CGPA: 7.5

SSC – [2020–2021]

Sri Rantnakar BalaVihar High School | Kalyandurgam, Andhra Pradesh | CGPA: 9.7

Internship

Virtual Intern – Full Stack Development & Data Analytics NoviTech R&D Pvt. Ltd | 1 Month

- Completed a virtual internship in Full Stack Development and Data Analytics.
- Gained exposure to web development and data analysis concepts.
- Worked on basic tasks involving development and data handling.

Projects

Spam Message Classifier (AI/ML)

- Developed a system to classify messages as spam or not spam.
- Applied basic Natural Language Processing (NLP) techniques for text preprocessing.
- Used basic machine learning algorithms for classification.
- Worked on improving model accuracy using sample datasets.

Responsive Login Page with Animated UI

- Designed and developed a responsive login page using HTML and CSS.
- Created a clean layout with header, login form, and footer sections.
- Ensured responsiveness across different screen sizes (mobile/desktop).
- Focused on improving UI design and front-end development skills.

Skills

- Programming Languages: Python (Basic), Java (Basic), HTML, CSS
- Tools: GitHub, VS Code, Tableau
- Libraries: Pandas, NumPy, Scikit-learn, Matplotlib
- Concepts: Machine Learning (Basic), Data Analysis

Certifications

- Data Analytics Virtual Experience Program – Deloitte (Forage)
- Python Basics Certification – Infosys Springboard
